INDEX

Acidifying agents and susceptibility to infection, 318
Acoelous turbellaria, asexual reproduction, 107
ACTH and urinary corticoids and 17 ketosteroids, 54
ADH and corticotrophin release, 415
Adenohypophyseal changes in patients dying of acute renal tubular necrosis, 37; of neoplastic disease, 299
Aggregation and behavior in temperature gradient, 128
Albinism, partial albinism, vitiligo, 407
Albrink, Margaret J. (see Woo, May Y.)
Aldosterone secretion and angiotensin II, 386
Allen, S.I. and Conn, H. O.: Observations on the effect of exercise on blood ammonia concentration in man, 133
Amenta, J S. and Waters, L. L.: The precipitation of serum lipoproteins by mucopolysaccharides extracted from aortic tissue, 112; The precipitation of serum lipoproteins by gelatin, 122
Ammonia concentration and exercise, 133
Angiotensin II and aldosterone secretion, 386
Antidiuretic hormone in corticotrophin release, 415
Antigen O, effect on sensitivity to penicillin, 458
Aorta, mucopolysaccharides and lipoproteins, 112
Applications of primary cell cultures in the study of animal viruses.
I. Isolation and characterization of bovine and avian enteric viruses, 339
II. Variations in host responses to infection by certain arthropod-borne viruses, 350
III. Biological and genetic studies of enteric viruses of man (enteroviruses), 359
Arthropod-borne viruses, host response, 350
Asexual reproduction in acoelous turbellaria, 107
Avian and bovine enteric viruses, 339

Beeson, P. B.: Clinical medicine and the future, 235
Beeson, P. B. (see Freedman, L. R.)
Beetle, aggregation and behavior in temperature gradient, 128
BEI, plasma lipids and triiodothyropropionic acid, 435
Bell, W J., Jr.: The Medical Institution of Yale College, 1810-1885, 169
Black, F. L. (see Luginbuhl, R. E.)
Bondy, P K. (see Golden, A.)
Book reviews
Abelson, D. and Brooks, R. V., Eds.: Quantitative paper chromotography of steroids, 255
Annals of the New York Academy of Sciences:
Enzymes of polynucleotide metabolism, Roth, Jay S., and others, 81
Hypothermia, Taylor, A. C., and others, 247
Psychophysiological reactions to novel stimuli: measurement, adaptation and relationship of psychological and physiological variables in the normal human, Dykman, R. A., Reese, W. G., Galbrecht, C. R. and Thomasson, Peggy J., 157
Trophoblast and its tumors, Ober, W. B. **(et al.),** 337
